Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with section 113(g) of the Clean Air Act, as amended (“CAA” or the “Act”), notice is hereby given of a proposed consent decree to address a lawsuit filed by WildEarth Guardians, HEAL Utah, National Parks Conservation Association, and Sierra Club (collectively, “Plaintiffs”): Wildearth Guardians, et al. v. EPA, No. 1:15-cv-00630 (D. CO). In 2012, EPA issued a rule partially disapproving a revision to a state implementation plan (SIP) submitted by Utah to address the State’s “best available retrofit technology” (“BART”) determination for Units 1 and 2 of the Hunter power plant and Units 1 and 2 of the Huntingdon power plant. In its lawsuit, Plaintiffs alleged that EPA has failed to meet the requirement of the Clean Air Act that the Agency promulgate a federal implementation plan (FIP) within two years of partially disapproving a SIP, in whole or in part. The proposed consent decree establishes proposed and final deadlines for EPA to take action to meet its obligations with respect to Utah.

DATES: Written comments on the proposed consent decree must be received by [insert date 30 days after publication date].

SUPPLEMENTARY INFORMATION:

I. Additional information about the proposed consent decree.

On October 30, 2012, EPA partially disapproved a revision to the Utah SIP intended to address the regional haze requirements of the Clean Air Act. 77 FR 74355 (Dec. 14, 2012). When EPA disapproves a SIP submission in whole or in part, section 110(c) of the Act requires EPA to promulgate a FIP within two years unless the State corrects the deficiency and EPA approves the plan revision. On July 22, 2015, Plaintiffs filed an amended consolidated complaint in the United States District Court for the Northern District of Colorado alleging that EPA had failed to promulgate a FIP for Utah as required by the Clean Air Act.

The proposed consent decree would resolve the lawsuit filed by Plaintiffs by establishing that EPA must take proposed action by November 19, 2015 and final action by March 31, 2016, to address the deficiencies in Utah's SIP revision regarding the

State's BART determination for Units 1 and 2 of the Hunter power plant and Units 1 and 2 of the Huntingdon power plant. See the proposed consent decree for the specific details.

For a period of thirty (30) days following the date of publication of this notice, the Agency will accept written comments relating to the proposed consent decree from persons who were not named as parties or intervenors to the litigation in question. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act. Unless EPA or the Department of Justice determines that consent to this consent decree should be withdrawn, the terms of the decree will be affirmed.

II. Additional information about commenting on the proposed consent decree.

Once in the system, key in the appropriate docket identification number then select “search”.

It is important to note that EPA’s policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at www.regulations.gov without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA’s policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA’s electronic public docket but will be available only in printed, paper form in the official public docket. B. How and To Whom Do I Submit Comments?

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked “late.” EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your

name, mailing address, and an e-mail address or other contact information in the body of your comment and with any disk or CD ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the www.regulations.gov website to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through www.regulations.gov, your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.
